

NST Newsletter: Monday 15th July 2024

This week's newsletter features the following items:

- **Reminder: Updates to NST email circulation lists – your help required please (1 attachment)**
- EYFSP Data and Transition Briefing
- Summer Term Subject Leader Network Meetings

Reminder: Updates to NST email circulation lists – your help required please

Emily is looking to update the email circulation lists we use to let staff know about Subject Leader Network meetings, other CPD/training opportunities and useful information.

To help us avoid spamming people with emails that may no longer be relevant to their roles, please would it be possible for you to complete the attached document and email it back to [Emily](#)? Thank you very much for your help with this!

EYFSP Data and Transition Briefing

On Tuesday **16th July 15:30 - 16:45**, the early years team are holding an online data briefing session to announce and explore the initial EYFSP data and provide the opportunity to reflect on key messages and what that might mean for your school in this transition period.

This briefing is intended for reception and year one class teachers, senior leaders and subject/phase leads who are invited to join collectively as there will be opportunities for school-based discussions throughout the session.

The session will provide a chance for **reception and year one colleagues** to begin interpret and understand their cohort data to enable them to plan and prepare for a smooth and successful transition, as described in the EYFS Handbook.

It will also support **year one colleagues** to understand the needs of their cohort for September so they have the opportunity to consider the support or adaptations needed, particularly for those children who did not achieve GLD.

During the briefing, the provisional data for Nottingham City will also be shared so **senior leaders** and **subject leads** will have the opportunity to interpret key messages from their own data.

This briefing is free to attend and bookings can be made here.
